

LOST

Please Help!

Sunday around 4am I lost my ring in or outside of club le fez as it was closing. I believe it slipped off my finger. It was too big for me so I wrapped a piece of fabric around the bottom of the ring to give it a more secure fit, but in hindsight this was very foolish. It was my father's ring and he passed it on to me. I rarely wore it out. I feel so torn. If anything has any info that would be more than terrific and I would be incredibly grateful.
