

LOST

Please Help!

I only found this site recently, but my cat Julia has been missing for over 2 years. She went missing on 27/09/2022 afternoon from Cambridge (CB1) wearing a red collar. Julia is now 4 yrs old, chipped and spayed and she has a few flecks of white from her chin to her chest. If you do have any information about my baby, please let me know. I just want Julia home, she means the world to me.
