

LOST

Please Help!

Oscar. Three years old. Fixed and microchipped. He went missing December 26th, from Lindenhurst. I hired a professional pet tracker, she took us to the canal, but the day he disappeared, The canal was frozen over. It's a longshot, but perhaps he got caught in somebody's car or somebody's boat. I'm heartbroken. I'm out there looking for him every day and every night. Can you please keep your eyes open for my Oscar? ☹️☹️☹️☹️
