Please Help!

Found Cat: cat is located at 290/berkman. If this isn't appropriate please remove !! I've been feeding this what I'm suspecting is a pregnant girl for about a month or so and she's very very sweet so i cannot tell you if she belongs to someone in my complex or if she's a community cat. Is it possible to get her trapped and fixed at no cost by the city? She's very vocal and I cannot tell if she is sick or in pain and I just want to make sure she is taken care of.
