

LOST

Please Help!

Phoenix has been missing since 1/9/25 from the NE area of Rushing and Salem. Have you seen him in your area? He's all orange with stripes, a perfect straight line down his nose of color, he's microchipped and neutered! Please if you see him or have him take him to get scanned so I can have my baby back ☹️☹️☹️ He's never been outside this long and was a permanent indoor cat until he got out.
