Please Help!

Found cat; Update: Took the kitty to get scanned, and it was not microchipped. ☐☐ A new cat appeared about a week ago in the colony I feed, and his friendly demeanor has me worried he's someone's missing pet. He appears to be missing an eye, which looks like a recent injury. ☐☐ Does anyone recognize this cat? Very sociable and not afraid of humans. Meows when approached. Found near Memorial Park in central.
