

LOST

Please Help!

Hey everyone, my little dog Ozzy is missing. I really need him back. He's an intact male about 2.5 years old, small, Shih-tzu/terrier mix and is friendly but timid. Went missing in the Montana Vista area around Friday mid-afternoon. Microchipped, has the yellow chip tag on his blue frayed collar. Notable features are a slightly crooked, deformed front right paw which he slightly favors when walking.
