

FOUND

Please Help!

Found this bike in the middle of the sidewalk out front of my place after getting home from work. Located just south of Dr. Anne Anderson High School on Daniel's Way SW. Not entirely sure if it was stolen, but there's dirt/grass frozen to the tires so it looks like it was pulled out from somebody's backyard. I have a serial for it but nothing on Bike Index. If anyone is missing a bike from their yard in the area let me know!
