

LOST

Please Help!

Lost Glasses. Hello, I seem to have misplaced my prescription glasses while I was on the LRT heading from clareview to the stadium Wednesday the fifth at around 945 pm. I could have possibly dropped them headed towards Jasper Ave when I got off as well. They are brown rounded square frames with a faint cheetah print going on and the prescription in the left eye is pretty heavy, I'm really hoping to find them. I'm legally blind with no depth perception. Picture to give an idea.
