

# LOST

## Please Help!

Lost Dog. .SEARCHING FOR OUR BABY GIRL Our sweet little special needs rescue broke leash while we were on a beautiful Sunday nature walk near Elk Neck State Park North East Maryland & North East High School "Tiffany" is a tiny frame pit bull, with very little social skills or awareness. I jokingly and lovingly call her autistic, because she doesn't really respond to any form of verbal or non-verbal communication. In all honesty, she'd probably just keep walking straight to Canada if she could.
