

LOST

Please Help!

Lost item: Hey all, This is a long shot at best, but I thought I'd try anyway. I lost this necklace on Thursday. I last saw it around 2pm at the Churchill Centre at Kilburn. I don't know if it could be found, but it holds huge sentimental value to me. It was on a cheap \$2 chain at the time, one of those silver bead looking ones, and I was looking at getting it replaced and it's when I lost it. If it can't be found, I get it, but it's worth a shot to ask, right? Cheers
