

LOST

Please Help!

Lost Item: Hey guys - I lost my necklace yesterday ☹️ Somewhere from college park, down queen street - idk I was kinda all over the place yesterday and didn't realise I lost it till this morning. It's gold with multi coloured gems. Reward for anyone that finds it ☹️ It was a gift from my mam and we don't live in the same country anymore so it means a lot. Thank you in advance ☹️
