

LOST

Please Help!

Lost Bird: Hi everyone. So PP the pink galah Is still missing His mum is extremely worried as his deformed beak makes eating hard, and as it's been over a week, she really is wanting to find him and get him home. He took of on sunday 30/3 from Bentleigh East, and was last seen in Dandenong the following Friday. That makes it quite a large area he could be now, but please if everyone can keep a look out for him and comment on here the time and location if he's spotted.
