Please Help!

Found Dog: This pup has been around our house in Springfield between Cedar Hill and the Historic District since Saturday. She does not have a microchip. I've posted her in the lost and found groups and Hip groups, but no luck. If anyone has any info or can spread the word if someone is missing this sweet girl. She's definitely a pet, I know someone is missing her. The collar she is wearing is not hers, she didn't have one on when we found her.
