

# LOST

## Please Help!

Lost Item: Hi everyone, I had a pair of hoka sneakers sent to me as a birthday gift and they were delivered to the wrong address. UPS has been little to no help and are requiring me to wait 5 business days for an investigation. I need these shoes asap as they're for my helping back/knee issue while I'm at work. If this front porch looks familiar / you received my package id really appreciate getting it back. Thank you!! (My address is queen/peter st, so you may be near that area)
