Please Help!

Found Dogs: ████████████████████ We have another dumped litter of newborns. Mom was sold or given away when babies were 2 days old. They are now a week and thriving but their current foster is leaving town for an unknown amount of time due to family emergency. We had a rescue/ foster lined up that was supposed to take them this morning but I have just been informed all 3 volunteers have backed out. This is an ☹️ plea for a rescue to step up and actually follow through. There are 7 bottle babies
