Please Help!

Found Dog: Black & white cat on side of 695 right before 95 N/S exit. I left food. Wondering if anyone familiar with this area knows if this is a baby being taken care of or is missing? Does not look ear tipped or skinny. Gorgeous...white is very white and black is reddish in the sun. Anyone with a trap in this area? Or know this area (county) better? I'm more familiar with city. Have no idea what to do in county and can't TNR to side of highway.
