Please Help!

Found Cat: FOUND : This cat has been seen in the area of Dairy Road between Twin Oaks & Owl Branch - Parkton for past couple weeks. It must belong to someone, but is very hungry & skiddish. It has the behavior of a lost cat. We are feeding & will attempt to use a live trap & get him to BCAS. white front, white paws, dilute brown & black colorings. This the best photo we could get of it. If anyone recognizes this and/or respond to this post
