## Please Help!

Found Dog: Please help! This dog has been roaming our street for over a week now and nobody in our small neighborhood seems to know who she belongs to. She's very well behaved and gets along with other dogs and kids. I have yet to hear her bark or jump on any of us even when excited. My daughter thinks she's one of the dogs she saw roaming the desert a few months back but were unsure. She's very scared because the neighbors are starting to get mean and throw rocks at her.
