

# LOST

## Please Help!

Lost Item: We went for a stroll under the Quesnel bridge along the river valley between 11:00-2:00 today when our vehicle was targeted. My husband's old wallet with expired cards (except Costco) were taken, a bag of brand new Michaels crafting supplies, and all my crochet supplies/projects were taken. I noticed that our large bag of reusable grocery bags were abandoned by the trees which let me to the area where I was able to save a few items (pictured in video).
