

# LOST

## Please Help!

Found Dog: Yesterday I spotted a camel color large German Shepard in the Eaglestone/Firestone area. He seemed to be looking for shade.... Kept sight of him and he entered the shaded porch area on Eaglestone. Today I spotted him again... he looks thin ... lost, so I guess that wasn't his home. Just in case you know of someone missing a German Shepard... He had his tail curled under between his legs when I tried to see if he was friendly... took off down dead end /Edgemere area on Eaglestone.
