Please Help!

Found Cat : I live in Balga. This cat was yowling in my car port tonight & other nights. Even coming in my house through a cat door. It may have attacked one of my cats. (2 head scratches) There is another very similar looking cat. Didn't get a photo of it. These 2 cats are not strays by appearance. I would like to speak with their owner so we can resolve the situation. In a co-operative and peaceful way. My cats have been outside at night.
