## Please Help!

Lost Item : Hi everyone, I lost a small black cross-body bag with white writing on it in front of the Russian Embassy in Charlotte st, Ottawa. It happened while I was jumpstarting my car after my battery died — I left the bag and a blue water bottle on the sidewalk, I drove off and when I came back less than a couple of minutes later, they were gone. I'm not sure if someone stole it or just picked it up thinking it was lost.
