Please Help!

Found Cat : Hello everyone Hope you're all Safe and well. I was wondering does anyone recognise this baby? He/she is Out in the bushland opposite Darton loop in Bertram, regularly. I see it there every day and evening, in the last 9 days. Does anyone recognise him or know who the beast belongs to? Looks to be rather well fed. I have seen him stalking the local wildlife, 😊 I've included a map of where I see him.
