Please Help!

"Found Cat : *****Update***** this poor baby was handed over to the Ranger by the vet as the owners were not able to be contacted and did not call back, I can't get any other updates and just hope that this poor baby get taken to a rescue it is such a beautifully natured little soul ☹☹☹ the system is broken and certainly deters people from trying to help any pets on the street, as once handed to rangers all contact and follow up is impossible,
