

# LOST

## Please Help!

It is my son's best friend. (Photo attached). It's a very worn and gnawed Panda teddy bear with a Red Bow around neck and an arm. We lost it in our journey from Natural History Museum to Covent Garden. After the last time we remember to have it, we were at science museum, take bus line 14 several times because 3 of them become out of service and have dinner at steak and company restaurant at Leicester Square.
