## Please Help!

This sweet girl was found wandering the streets and park near UD Arena. According to neighbors she was dumped there at least 3 days ago. I've tried to feed her and get her water with no luck. She is too scared of people for me to get close enough. I left food and water for her but not sure if she will consume it. Does anyone know an organization who can help her if we are able to get her somewhere? Anyone willing to foster her? I'm worried about how much longer she will last on her own.
