

LOST

Please Help!

Hi everyone around Wexham & Slough. I lost my dji phantom 4pro plus Drone in Black park wexham. Please let me know & I am the legal owner of the drone & I got the documents with me for it. Drone lost connection with remote half mile far away from the park. But lost location in picture. Model GL300E dji . White colour. It's got my operator ID on it & hopefully criminals don't use it for wrong activity. Police can't help because it's not stolen. Thank for reading.
