Please Help!

"Found Cat : I found a cat today that wasn't doing well so took it to Fawkner vet. I don't want to scare anyone so please know the vet did X-rays and nothing is broken but theybe put it on fluids. Unfortunately it didn't have a microchip and I didn't manage to get photos as I was too worried about getting it to the vet. Predominantly white head with bits of grey on the feet. Can't remember the body but will ask vets for photos tomorrow. FAWKNER area.
