

LOST

Please Help!

Hi. My daughter has lost her teddy bear on 06/06/25. We were parked on Gloucester Docks and had the teddy bear when we left the car. The teddy bear has a high sentimental value. It has been passed down from her grandma and been in the family for a lot of years. My daughter and myself are both absolutely heartbroken. It is a white monkey. Roughly 18" tall and it is wearing a purple dress.
