Please Help!

☐☐☐STILL MISSING☐☐☐ Hello I'm posting about my lost cat who when missing on 03/07/25 in AL1 2LZ (Lectern lane) whilst staying with a friend as we are currently temporarily relocated due to home repairs. She is an entirely indoor cat with no sense of home or the area she's in so she is very displaced, we aren't able to go up there as our home is located in the west Watford area though some people + the friend was looking but we aren't so sure that the friend is looking anymore/hard enough
