

LOST

Please Help!

My pet has gone missing from West Park, BD8 area, She was last seen getting stroked by two strangers, a girl and a boy. She's a domestic long hair Cat. She's mainly brown, ginger, white and black. She's friendly but gets scared quickly. She is three years old. She never leaves her home street, stays in her back yard or street. She would go in the bushes around West Park field.
