

# LOST

## Please Help!

My son's white Jellycat elephant soother/comforter (small teddy with blanket attached), which he has had and loved since birth. The ears, feet, and hands have been repaired with pale blue jersey fabric. We think this was left in the Premiere Inn room 112 on the morning of Sunday 13th July 2013, 2025 (the hotel are also looking for it). "Ellie" is much missed and we'd love to get her back.
