

LOST

Please Help!

Our cat Frank went missing or stolen on 9/10/25. He is medium/large build with cream/grey fur with grey markings on face, and a striped tail, He has big blue eyes and was wearing a blueish green colour bow tie collar. He looks chunky because his fur is thick but he may look smaller if he's not eaten. He is very timid and may run away if approached but he is also known to approach people himself as he is super friendly if he trusts you and he he's very gentle!
