

LOST

Please Help!

This was my childhood stuffed animal that I lost in a move. I haven't been able to find a husky plush that is as fluffy as he was. He has the same style body, tail and face as the FAO holiday 12' plushes but had no logos or metal on his body. He is 12' with fluff that went over his paws, the same gray color over half his body including the middle of his face between his eyes, his nose was a black plastic safety nose. I have attached an image 2008-2010 was when I got it. May have come with a red harness and plush leash No claw lines on the paws. Hard nose and eyes but soft everywhere else Medium length fluffy tail Incredibly fluffy all over 12' upright, not floppy. Looks very similar to FAO Schwartz/ bstaofy especially in the style of the body and face but it isn't that as mine was wayyy fluffier.
