LOST

Please Help!

Elly the Moose missing on the Gothenburg–Kiel ferry On Sunday, November 1, 2026, we left our beloved little plush moose behind in our cabin while disembarking from the ferry *Stena Scandinavica* at the port of Kiel. Has anyone perhaps found her? She is small enough to have slipped under the mattress or between the bed sheets, and could even have ended up in the shipping company’s laundry service. We would be very grateful for any information or assistance! Our little daughter misses her dearly.
