

LOST

Please Help!

Snowflake went missing on 17th February. He is big, all white and fluffy. He is neutered, microchipped and has had recent dental work. He has bright amber eyes. He is very friendly and loves cuddles. He may have got lost and tried to join your family. I have two small children who miss him desperately. Please check sheds/garages and if you spot a big white fluffy cat, please take him to your local vet.
