

LOST

Please Help!

Hello! I've only just found this site but am still trying to track down an engagement ring that I lost over summer - I was carrying it in a purse as the stone was loose and at some point it dropped out but I'm not sure exactly where or when. Nightmare as I live in Surrey but travel to London a couple of times a week - was around Islington/London Bridge/Victoria/ Hyde Park during these times. I've tried train companies etc but nothing. Would happily give a reward to anyone who found it!
