

# FOUND

## Please Help!

Found with its carrying case on the side of the road (Hwy 8). Camera is severely damaged but I was able to recover vacation photos and videos from the SD card. The photos suggest this camera belonged to a Japanese couple with a golden retriever. There are also photos taken at Waikiki Beach from February 2024. If you lost this camera or know the original owners, please contact me! I'd be happy to mail the SD card, and/or share the files securely online (dropbox/etc).
