

LOST

Please Help!

I left my phone on the C2C train that went to Fenchurch Street Friday 27th Septmeber but ended up tracking it to That road near the C2C East Ham train depot. Please if you have the phone please return. It has a blk case with a large crescent moon and blue mountains and rivers. It has a fingerprint hole which shows the back of the phone to be blue. The phone died but it did have a wallpaper of a ginger cat .

Please contact me online:
