

LOST

Please Help!

my little brother lost the stuffy he's had since he was born (he's almost 6), it's destroying everyone. a panda, not very stuffed, "white" area is an light off-gray color. may have been lost in a park, so likely a bit worse for wear. picture is old, he hasn't changed much except "white" is a bit darker, eyes more scratched. attached photo is the best i can find of him, but here's 3 more (2nd is newest pic i could find): <https://ibb.co/ZchmbLM>
