

LOST

Please Help!

Last time we saw our beloved doggy was when we packed our things in Cancun on Saturday 23rd of March. We flew from Cancun to Panama airport and during the walk/run to not miss our next flight my daughter's backpack opened. I checked what fell on the ground and in the backpack and I thought to have seen our doggy in the backpack, but when we reached home and emptied all our luggages she was not there. Contacted the hotel, the airports and airplane company but she was not found.
