

LOST

Please Help!

Lost my Android (Galaxy A70) with a weathered black case and several cards in it with my name on them (Simon Mulder). Lost it in the tube or tube station on the District/Circle or Hamersmith and City line. Offering a reward to who found it. Had a call from the finder from my phone to a friend, but lost connection and now the battery is empty. Please contact through e-mail. Many thanks!
