

LOST

Please Help!

On the last day of our holiday our rental car was broken into. They stole our daughters tote bags (which were in the very back footwell, covered with a black sheet, all windows were blacked out too in the back) In one of the bags was my daughters childhood bear she had had since birth. She's devastated. The photo shows what she used to look like. Now she has no stuffing in her feet, not much in her arms and she's very faded. Very loved!
